## GISRA Concerns and Resolution Recommendations

- ED compliance dates set well after FY02 budget determined.
  - Push back C&A completion to allow use of FY03 budget and time?
- Departmental task completion criteria changing "on-the-fly."
  - Clarification regarding use of independent RA received 2/5/02; only two months reaction time to hire contractors, complete RA.
- No ED guidance yet for C&A requirements, format, etc.
  - Unknown testing requirements, format, necessary documentation, etc.
     precludes budgeting and planning process.
- Scope and interrelationship of FSA systems necessitate more time and funding to complete tasks than for other agencies' systems.

#### **GPEA**

- FSA is already dedicated to "moving from paper to electrons."
- We need to ensure we comply with GPEA reporting requirements.
